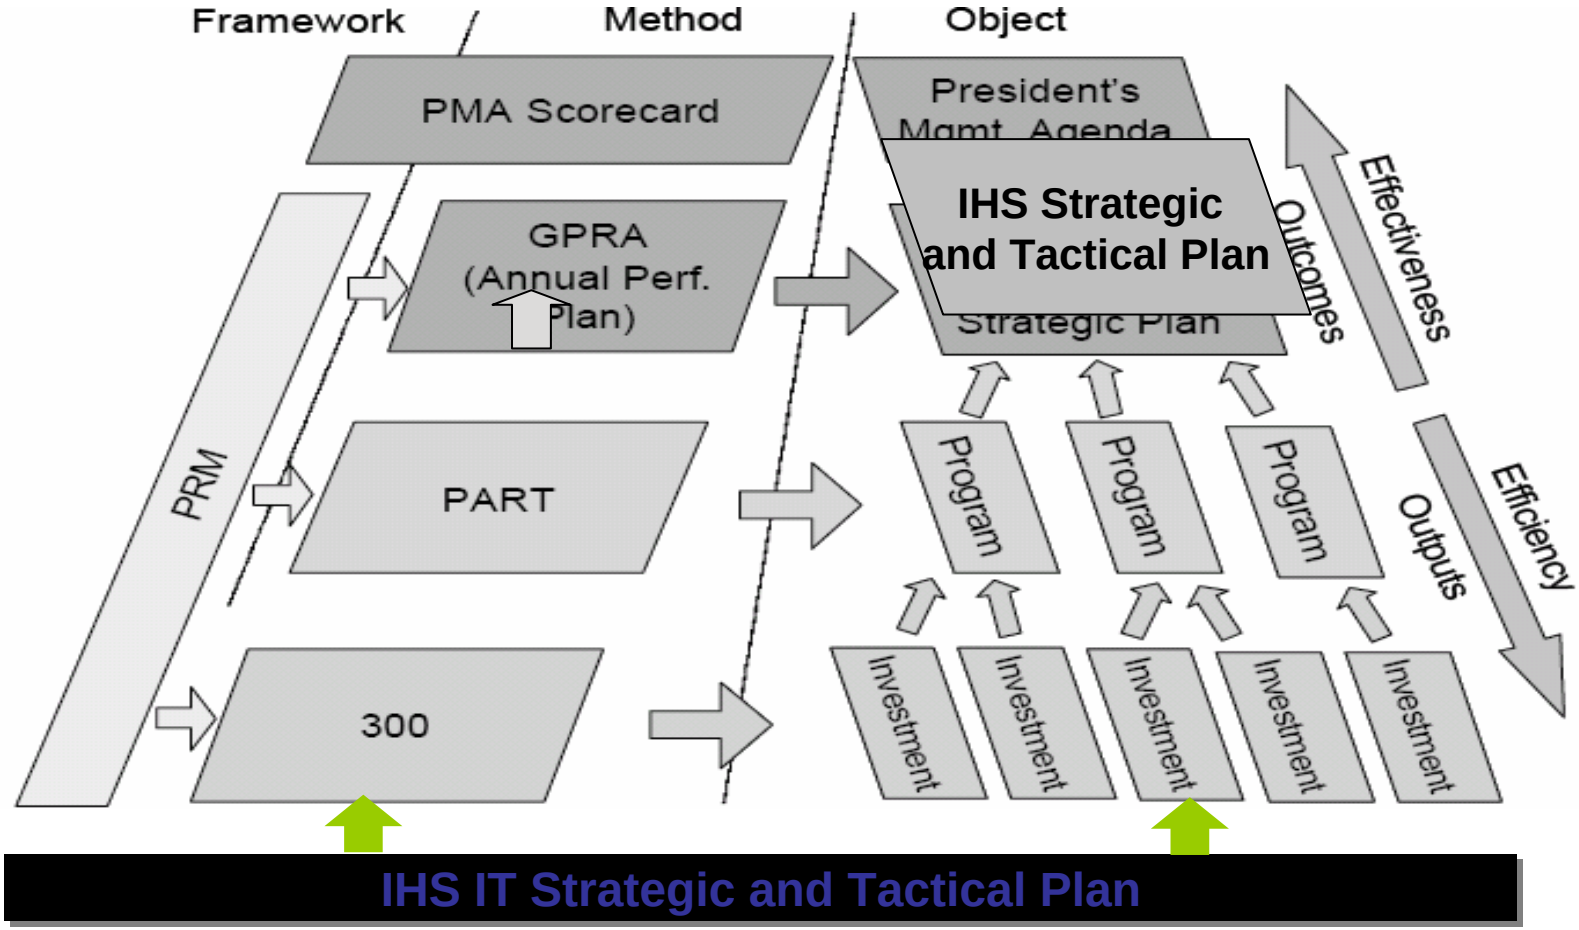
IHS IT Strategic Plan

- Why a Plan
- Elements of the Plan
- Contents
- Comparison
- Goals

Why Are We Doing This?

- A strategic plan helps to provide direction and focus
- A strategic plan points to specific results and establishes a course of action for achieving them
- A strategic plan helps different business units within an organization to align themselves with common goals
- The strategic planning process provides the framework for developing sound business strategy
- OMB A-11PART 6 Preparation and Submission of Strategic Plans, Annual Performance Plans, and Annual Program Performance Reports (nee GPRA)

Landscape for Strategic Planning and Performance Measurement



Content in IHS IT Strategic Plan 1/3

I. Executive Summary 1
